CERTIFICATE PROCEDURES

General Description

These certificate programs allow students to finish a certain amount of credits in a concentrated area to obtain a certificate only (not a diploma). After acquiring a certificate, the student may choose to continue and further their education by taking courses to obtain a degree.

Process

- Graduate students must maintain a GPA of 3.0 or better to be eligible for a certificate.
- Students choose to major in a certificate program.
- Students may meet with their advisor/chair during the course of their studies.
- Students are advised on what classes need to be completed to obtain the certificate.
- When students are enrolled in their last course for completion of the certificate program, the student must fill out the appropriate certificate form.
- The form must be submitted to the Registrar's Office.
- The Registrar Associate responsible for degree conferral/certificate completion will perform an audit to determine if this student has met all certificate requirements. After that has been confirmed, a statement will be noted on the student's transcript.
- The Registrar Associate will also print the certificate and mail it to the student's home address.
- PLEASE NOTE: Certificate candidates are not eligible to participate in a graduation ceremony.
