

Associate of Science in Business Management

Fast-Track Your Business Education

Gain comprehensive, practical business career preparation with maximum efficiency in the 60-credit AS in Business Management program. Under the guidance of industry experts, you'll put theory into practice in real-world projects that will prepare you to thrive in the dynamic world of business. Whether you're just starting out, upskilling for your current position or planning to pursue further education, this program checks all the boxes for success.

Designed With Guidance From Business Leaders

This career-driven undergraduate business degree program will give you versatile, in-demand job skills through business classes in analytics, project management, marketing, sustainability, supply chain management, communications, professionalism and more.

Apply Credits From Pre-College Programs, Previous College Courses or Work Experience

Business courses are taught by industry experts who are active business management practitioners, ready to share the hard-earned wisdom and experience they've gained addressing today's business challenges. Small business class sizes ensure valuable interaction between students and esteemed faculty.

Part of a Series of Dual-Credit ADVANTAGE™ Stackable Credentials

This Business Management associate degree is a valuable standalone credential, and it can also serve as the first step in a business management pathway. All 60 credits of the AS in Business Management can be applied to the BS in Business Management. From there, you can accelerate into the MS in Management program by incorporating four graduate-level courses into your bachelor's degree. It's a great way to save time and tuition dollars!
