

Bachelor of Science in Behavioral Science

Make a Difference — Solve Complex Problems Using Behavioral Psychology

Wilmington University's Behavioral Science program cultivates leaders and problem-solvers prepared to work in the business, education, government, human services and nonprofit sectors. Studies in human behavior and society focus on the impact of diverse social issues, environments and cultural influences on individual and large group behaviors.

Broad-Based Degree Provides Widespread Career Options

You'll develop an in-depth understanding of human behavior based on psychological, cultural anthropological, philosophical and sociological points of view. Hands-on learning experiences and opportunities for internships/co-ops thoroughly prepare students for careers in the business, nonprofit, government, education and human services sectors.

Contribute Solutions to Complex Problems

You'll gain an understanding of contemporary global and local issues that require complex solutions through studying family, group and cultural dimensions of behavior as well as ethics, research and program evaluation. Courses are led by seasoned, caring faculty with broad professional experience outside of the classroom.

A Behavioral Science Program That Fits Your Busy Life

Most WilmU students are 25 or older, balancing family, work and other commitments. This flexible and affordable program is available face-to-face or 100% online for maximum convenience with a choice of schedule options.
