

Bachelor of Science in Environmental Science and Policy

Protect and Preserve Natural Resources With a BS in Environmental Science and Policy

This undergraduate STEM degree program sets you on the path toward a rewarding green career as an environmental scientist, specialist, consultant, policy analyst, educator, writer or park ranger. The Environmental Science and Policy degree program is offered face-to-face and in an innovative online format.

Top Quality, Top Flexibility, Online Science Bachelor's Degree

This innovative online environmental science degree program gives you the option to learn when and where it's best for you, without sacrificing any hands-on learning. You'll receive extensive lab kits for home preparation along with close guidance from faculty who are active practitioners. Small class sizes ensure valuable interaction between students and instructors.

Think Like an Environmental Scientist — Write Like a Policymaker

Combining an interdisciplinary knowledge foundation with meaningful hands-on experiences, this degree program focuses on critical thinking and hypothesis testing as well as scholarly writing and the use of scientific and digital tools in problem-solving. Graduates leave the program job-ready and prepared for graduate-level education.

Partnerships Offer Exciting Opportunities for Students

Environmental science degree students benefit from WilmU's membership in the Delaware Space Grant Consortium, a program funded by NASA to train students and researchers in the areas of science, technology, engineering, mathematics and geography. And through a partnership with the Delaware INBRE program, WilmU fosters scholarships in biomedical research and internships with other local universities and employers.
