

# Bachelor of Science in Health Sciences

## Start or Advance Your Health Care Career With a BS in Health Sciences

Flexible and affordable, Wilmington University's Health Sciences bachelor's degree program gives you the knowledge and skills to fill roles that provide managerial, educational and/or clinical expert direction in a health care setting. Available in person or 100% online, the program is offered as a four-year degree or as a degree completion program for those who hold an associate degree.

### Study Health Sciences Alongside Experts in the Field

You'll receive a strong science foundation and gain proficiencies in health care policy, research, leadership, public health, and ethics and medical law from faculty who are active practitioners and experienced with the most current methodologies.

### Align Your Health Care Degree With Your Professional Interests

Tailor your Health Sciences program to meet your career goals by using electives to complete a WilmU certificate program and/or through meaningful, hands-on cooperative learning experiences that build your skill sets and professional network.

### Part of a Series of Stackable Credentials

Through **Dual-Credit ADVANTAGE™**, you can use elective courses in this bachelor's degree program to complete a related certificate while you earn your degree or accelerate into your next degree by incorporating master's level coursework — at no extra tuition cost.

You might consider one of these graduate programs:

- The MS in Health Sciences with a choice of concentrations:  
Population Health | Higher Education | Environmental Health
- The MS in Management or the MBA with a concentration  
in Health Care Administration
