

National Board Certified Teacher (NBCT)

Graduate Certificate

This 15-credit graduate-level certificate supports state-licensed or -certified teachers with three or more years of teaching experience through the rigorous process of applying for National Board Certification, the most respected professional certification available in K-12 education. Research has shown that NBCTs have significant impact on student learning and achievement and that NBCTs are effective mentors within their learning communities.

National Board Certification is an advanced teaching credential that goes beyond state licensure. The National Board for Professional Teaching Standards awards NBC through a performance based, peer-reviewed series of assessment components, including an e-portfolio submission. WilmU has developed this certificate program in partnership with the National Board and NAF (National Academy Foundation) to offer support and preparation guidance to educators seeking to attain NBC. The online format provides flexibility for busy educators.
