

Biotechnology

Undergraduate Certificate

Study cellular and molecular biology, hone laboratory skills, and grow proficiency in statistical analysis using computational tools such as R. Skills gained in this program prepare students to begin or explore careers in biotechnology or to continue their studies in a broad choice of undergraduate degree programs.

Credits from this certificate program can be applied to the BS in Biology with Biotechnology concentration as well as degree programs in Behavioral Science, Interdisciplinary Studies, Applied Technology, Psychology and Criminal Justice.

Course Requirements (21 credits)
