

Logistics and Supply Chain Management

Undergraduate Certificate

Companies are seeking knowledgeable supply chain professionals to reduce costs, deliver products and services faster, and implement solutions to improve efficiency and cost effectiveness. In fact, the U.S. Bureau of Labor Statistics projects a 30% growth in supply chain-related employment between 2020 and 2030. The Logistics and Supply Chain Management certificate will prepare you with the skills to analyze and coordinate organizational systems that move products from supplier to customer efficiently in a fast-paced global business environment.

This credential will enhance your resume and your marketability, and as a **Dual-Credit ADVANTAGE™** program, its associated credits can also be applied toward related bachelor's degree programs in WilmU's College of Business, including the **BS in Business Management** and the **BS in Organizational Leadership**.

Curriculum: (15 Credits)

Prerequisites may be required. Visit the program page for details.
